

*The material matters in material handling*

VIAL TRAYS

GEL CAP DRYING TRAYS

DEEP STORAGE TRAYS

## **HIGHLY FUNCTIONAL & ECONOMICAL ALTERNATIVE TO METAL**

### **VIAL TRAYS**

- Tapered front lip for easy loading
- Easily cleaned non-porous surface
- Vial gates available for various temp ranges

### **GEL CAP DRYING TRAYS**

- Dropped sides or ends improve air circulation to speed drying
- Easy stacking without warping or distortion
- Optional heavy duty dollies

### **DEEP STORAGE TRAYS**

- Ideal for storing gel caps prior to packaging
- Stacking design ensures product protection and saves valuable work and storage areas
- Smooth surface is resistant to mild acids and alkaline solutions

Reinforced composites bring a new level of performance to processing and pharmaceutical handling.  
**And the leading name in FRP is MFG.**
